

To all members of the Constitution, Law and Justice Committee

Re: Green Passport – Misuse of the Vaccination Certificate

In our previous document (31.12.2020), the Emergency Council submitted a report to the Constitution, Law and Justice Committee regarding the passport, including the way in which it relates to health, epidemiological, technological, social and moral aspects. We would like to remind you all that the green passport serves two objectives:

1. Encouraging immunization.
2. Possible opening of "green areas" and subsequent opening of commerce.

The first goal, encouraging immunization, is not necessary: the various HMOs are unable to satisfy the need and there are not enough doses of the vaccination to meet the demand. Israel significantly leads the world in the rate of vaccination and therefore there is no need, in contrary to forecasts by various sources, to encourage the vaccination process in Israel.

Regarding the second objective, opening of commerce seems to be very problematic: **many questions still exist regarding the effectiveness** of the vaccination in preventing infection and transmission. Therefore, the "green passport" is become a double-edged sword, creating a false sense of security that could lead to outbreaks due to mass gatherings.

The World Health Organization (WHO), recommends that "vaccination certificates" be used solely for epidemiologic purposes and rejects any other use of these certificates. The validation of this recommendation was renewed on January 15, 2021, in the WHO's Emergency Committee. To date, no country in the world makes use of the immunization certificate for use other than epidemiological purposes, with the exception of a handful of countries in which the certificate is a prerequisite to foregoing quarantine when entering their territory. Moreover, a number of countries have already declared that they will not use the vaccination certificate. Such countries include Great Britain, Ireland and Germany.

Additionally, we have warned that **the green passport constitutes an unprecedented step which does not align with medical, social and ethical principles**, including individual confidentiality and autonomy, infringes on fundamental rights, and opens the door to labeling and ranking segments of the population.

Our suggestion was, and remains, to abstain from making use of the vaccination certificate. At this stage, and in light of existing knowledge, use of the vaccination certificate is unnecessary "marketing" that even conceals a health risk. Moreover, use of the vaccination certificate constitutes an ethical and social Pandora's box, planting seeds of medical coercion using "carrots" and "sticks". Simple logic dictates that the corona vaccination should be registered in the individual's personal vaccination booklet, and that this vaccination should be treated in the same manner as any other vaccinations such as measles, hepatitis B or the Mantoux test.

While governments throughout the world debate the epidemiological, legal and ethical standing of the "vaccination certificate", Israel is rushing forward in issuing these certificates and no longer wondering about the "if", only concerned with the "how" and "when". **The issuing of the Green Passport, with all the contentious issues it brings, was never discussed in the required regulatory bodies, such as the National Council for Bioethics, and an ethical and legal opinion was never consulted in depth**, as is befitting of such an unprecedented step. It sometimes seems that in our rush forward, forced upon us at times due to the severe corona crisis, **we forget that the green passport is a means, not an end in itself.**

Existing knowledge indicates that the Green Passport is unnecessary, poses an epidemiological risk, and constitutes a 'slippery slope' for aspects relating to medical ethics and social perspectives.

We, many of whom have been vaccinated (and some of us who have fallen ill with Corona) and are eligible for the green passport- **call out to you: the appropriate place to register the corona vaccination of each individual is in each person's individual vaccination booklet. The corona vaccination is equivalent to every other significant vaccination such as measles and polio. There is no need for a "green passport".**

The Members of the Council* (in alphabetical order)

Dr. Yifat Abdi-Kork

An expert in epidemiology and molecular biology, served as a Consultant to the national health basket public committee and Head of Pharmacoeconomics Department, Israeli Center for Technology Assessment in Health Care, the Gertner Institute.

Prof. Zvika Granot

Professor of Immunology in the Faculty of Medicine at the Hebrew University. An international expert in the field of neutrophil research, is developing new approaches to immunotherapy.

Dr. Bruria Adini

PhD in Health Systems Management, serves as head of the Department of Emergency and Disaster Management at Tel Aviv University. Former Head of the IDF Emergency Preparedness Division (Lt. Col.) and Senior Consultant to the Ministry of Health's Emergency Division.

Dr. Michal Hemo Lotem

Pediatrician, Entrepreneur and author on leadership at medical futurism. Served as Vice President of Innovation at the Sheba Medical Center, and as a member of the Prime Minister's Advisory Council. Founded Beterem - Safe Kids Israel, and OSHEYA - Women Lead Wellness. Received Prime Minister's special Award for her contribution to children.

Prof. Amos Adler

Professor of Medicine in the Department of Epidemiology and Preventive Medicine, Specialist in Pediatrics and Clinical Microbiology. Director of the Microbiological Laboratory at Sourasky Medical Center Tel Aviv, Treasurer of the Israeli Association for Infectious Diseases.

Prof. Asa Kosher

Professor Emeritus of Professional Ethics and Philosophy at Tel Aviv University. Laureate of the Israel Prize for Philosophy. Member of the European Academy of Sciences and Arts. Wrote dozens of state and public codes of ethics, including the military code of ethics, as well as serving as a member of several national public committees

Prof. Elian Alkrinawi

Professor of Social Work, served as president of the Achva College, head of the Department of Social Work at Ben-Gurion University and as dean of the School of Social Work at Memorial University in Canada. Killam Award winner and beacon lighter at the 2013 Independence Day ceremony.

Prof. Amnon Lahad

Specialist in Family Medicine (ISR) and Public health (US). Head departments of Family Medicine Hebrew University & Clalit Health Services, Jerusalem, Israel. Vice Dean Academia – Family medicine, Hebrew University. Chairman of the National Council for the Health of the Community. Active Family physician in Jerusalem.

Prof. Zvi Bentwich

Professor of Medicine, specialist in Clinical Immunology and Infectious Diseases. Served as Chief of Department of Medicine, and pioneered AIDS medicine in Israel. Currently Head of Center for Tropical Diseases and AIDS at Ben-Gurion University. President of NALA Foundation for the Control of Neglected Tropical Diseases in Developing Countries and Board Member of Physicians for Human Rights in Israel.

Prof. Retsef Levi

Professor of Operations Management at the MIT Sloan School of Management. An international expert in safety, risk management and analytics-driven design and optimization of health systems and biologic drugs manufacturing systems. He is leading several large-scale research collaborations across the world with leading industry enterprises and government organizations. He has consulted multiple state governments during the COVID-19 pandemic.

Dr. Orna Blondheim

Specialist in Pediatrics and Neonatology as well as Director of Health Systems. She served as the director of the Schneider Children's Hospital and served 16 years as CEO of Emek Medical Center

Prof. Udi Qimron

Chair of the Department of Clinical Microbiology and Immunology at Tel Aviv University. Expert in T cells, mucosal vaccines, genetic engineering of bacterial viruses, and CRISPR. Published in Science, Nature and Cell and has won prestigious research grants including the ERC. Partner in the establishment of the SARS-CoV-2 testing laboratories.

Prof. Emerita Rivka Carmi

Professor of Medicine, Specialist in Pediatrics, Neonatology and Medical Genetics. Served as Director of the Genetic Institute at Soroka Hospital, Dean of the Faculty of Medical Sciences at Ben-Gurion University, Chairman of the Dean of Medical Schools Association, President of Ben-Gurion University and Chairman of the Board of Universities.

Dr. Amir Shachar

Specialist in internal medicine, cardiology, emergency medicine and health administration. Established and managed the Department of Emergency Medicine at Sheba Hospital, was deputy director of Meir Hospital and currently heading the ER at Laniado Hospital. Founded the Emergency Medicine department at Tel Aviv University.

Prof. Aaron Ciechanover

Serves as a Distinguished Professor at the Faculty of Medicine in the Technion-Israel Institute of Technology. Awarded with the chemistry Nobel Prize, as well as the Lasker Award, the Israel Prize, and the EMET Prize. He is a member of the US National Academies of Sciences (NAS) and Medicine (NAM), the Israeli National Academy of Sciences and Humanities, and the Pontifical Academy of Sciences at the Vatican.

Prof. Mordechai Shani

Professor of Medicine and Medical Management, Specialist in Internal Medicine. Winner of the Israel Prize. Served twice as Director General of the Ministry of Health and Director of Sheba Hospital, as well as Chairman of the Medicines Committee. Founded and managed the School of Public Health at Tel Aviv University, and also established and managed the National Institute for Health Policy Research.

Prof. Eran Dolev

Professor of Medicine, Military Medicine and Medical History, Specialist in Internal Medicine, Director of Health Systems and Ethics in Medicine. He served as Surgeon General of the IDF, as Director of the Internal Medicine Department, and as Chairman of the Ethics Bureau of the Medical Association and Head of the International Review Board of Tel Aviv University.

Prof Emerita Zahava Solomon

Lt. Col (ret). Recipient of the Israel Prize, the Emet Prize and The Laufer Award. Her research in Social Work and Psychiatric Epidemiology focuses on man - made trauma. Served as head of research in mental health IDF. Head of the School of Social Work and director of the Trauma I-Core, TAU and DSM-4 (APA) committee.

Prof. Asher Elhayany

Professor of Medicine, Specialist in Family Medicine and Public Administration. He served as the CEO of Meir Hospital, the director of the Central District at Clalit Medical Centre, and as the director of the United Health Fund. He served as chairman of the National Council for Health in the Community. Family doctor in the Negev.

Dr. Yoav Yehezkeili

Specialist in Internal Medicine and Medical Management. Lecturer in the Department of Emergency and Disaster Management at Tel Aviv University. Lt. Col. Res., One of the founders of the epidemic treatment team and evaluation programs for extreme biological incidents. Served as a hospital's deputy director, district physician, director of the primary care division in the HMOs. Medical consultant to KI research institute.

Prof. Eitan Friedman

Professor of Medicine in the Department of Genetics and Biochemistry, Specialist in Internal Medicine and Medical Genetics, PhD from the Karolinska Institute in Sweden. Established the Ontogenetic Unit and Clinic for High-Risk Women at Sheba Hospital, serves as chair of the Ministry of Health's Supreme Helsinki Committee.
